SKILLS

Languages:	Java, JavaScript, Python, PHP
Frameworks:	HTML, CSS, Tailwind, Node.JS, React
Tools/Platforms:	MySQL, MongoDB, Git, Docker, Postman
Soft Skills:	Problem-Solving, Collaborator, Adaptability

PROJECTS

Jottr – Collaborative Notion-like Workspace | [GitHub Link](#) | [Live Link](#) Nov 2025

- Engineered a Notion-like collaborative workspace featuring real-time document editing using Tip-Tap editor, Yjs, and WebSockets
- Integrated Google OAuth with Supabase and enforced Row-Level Security for protected workspace and document access
- Developed team workspaces, public/private sharing flows, offline editing, and a responsive dark-mode UI
- Optimized frontend performance and state management using Next.js, React, Tailwind CSS, and Zustand
- Tech:** React, Tailwind CSS, Tip-Tap, Yjs, WebSockets, Supabase, PostgreSQL Node.js

LibraFlow – Blogging Application | [GitHub Link](#) | [Live Link](#) Sep 2025

- Built a full-stack blogging and chat platform with CRUD posts, live chat components, and user notifications
- Implemented secure JWT authentication, role-based admin controls, and modular API architecture with Express
- Integrated Razorpay to process donations and added ImageKit-based media uploads with fallback handling
- Developed a fast, interactive frontend using React **and** Vite, improving responsiveness and user experience
- Tech:** React, Vite, Node.js, Express, MongoDB, Mongoose, JWT, Razorpay, ImageKit

CookBook – Social Recipe Platform | [GitHub Link](#) | [Live Link](#) Oct 2024

- Built a full-stack social recipe app with recipe creation, editing, forking, bookmarking, and commenting
- Implemented trending algorithms, dietary tagging, unique view tracking, and advanced search/filtering
- Developed user profiles, notifications, and an admin dashboard for moderation and analytics
- Designed a modern, responsive UI with dark mode and smooth animations using React + Tailwind
- Tech:** React, Vite, Tailwind CSS, Node.js, Express, MongoDB, Mongoose, JWT, Bcrypt

TRAINING

W3Grads (Edtech platform) Jun – Jul 2025

DSA in Java and Full-Stack Bootcamp with Industrial Practices

- Enhanced proficiency in data structures and algorithms, leveraging Java to optimize solution efficiency and achieve an average time complexity reduction of up to 30% across various test cases.
- Built and deployed end-to-end mini applications, applying REST APIs, MVC design, database connectivity, and UI-integration workflows.
- Practiced industry aligned coding standards, version control (Git), and collaborative problem-solving in agile-like environments
- Tech stack used:** Java, React, MongoDB, Postman

CERTIFICATIONS

- Frontend Developer (React) | HackerRank | [link](#) Nov 2025
- Python (basic) | HackerRank | [link](#) Nov 2025
- Cloud Computing | NPTEL | May 2025

ACHIEVEMENTS

- 5 Stars in Python and Java on HackerRank platform

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 7.9	Punjab, India Aug 2023 - Present
---	-------------------------------------

Prime College Kano A level; Grade: A	Kano, Nigeria Aug 2021 – Sep 2022
---	--------------------------------------

Prime College Kano O level; Grade: A	Kano, Nigeria Sep 2020 – Sept 2021
---	---------------------------------------
